

Multiple research scientist/engineer/intern positions of all levels

Inception Institute of Artificial Intelligence (IIAI) |

Multiple research scientist/engineer/intern positions of all levels are available within the group of Prof. Shengcai Liao (<https://liaosc.wordpress.com/>) at the Inception Institute of Artificial Intelligence (IIAI). Our main research directions include face/person detection/recognition/re-identification, and single-/multi-camera multi-target object tracking.

[ABOUT]: The Inception Institute of Artificial Intelligence (<http://www.inceptioniai.org/>) was founded in early 2018. It is the leading AI institute in UAE with the focus on breakthroughs in various areas of AI research.

[REQUIREMENTS]: Research Scientist/Intern Positions require publications in top-tier CV/ML venues (CVPR/ICCV/ECCV, NIPS/ICML/ICLR, TPMAI/IJCV). Engineer positions require professional knowledge, rich experiences, and strong programming skills in face/person analysis.

[BENEFITS]: Extremely competitive package (tax-free salary). An extremely powerful GPU farm with several hundreds of NVIDIA DGX-1/DGX-2 servers. World-leading standard of healthcare and education. An enjoyable modern working environment with spectacular sea-view.

[APPLICATION]: Please send an email to Dr. Irtiza Hasan (irtiza.hasan@inceptioniai.org) with the subject line "[IIAI Positions]:" followed by the relevant role, and the content including a comprehensive CV, and/or links to your homepage/Google Scholar profile/Github or other profile with source codes developed by you.
